

Hand-In-Hand for the Freshest Produce

Sustainable, wax-free and water-resistant, Greencoat-coated boxes protect your fresh produce products, the environment, and your bottom line.

The result of five years of focused research and development, Greencoat boxes are 100% recyclable.

Providing high-quality products to your end customer is key, whether you're a grower, packer, or fresh produce buyer for a retail, foodservice or restaurant group. You must ensure your choice of packaging protects fragile fruits and vegetables throughout every step of the supply chain. Greencoat is built to safeguard whatever your place inside.

Try our packaging and avoid costly trial-and-error. You'll gain significant savings by avoiding expensive wax disposal costs. Your customers save when they reap the benefits of recycling Greencoat's coated, paper-based packaging.

And you'll ensure a higher food safety and hygiene standard than with RPCs, which are often affected by inadequate sanitation or post-cleaning processes. Researchers from both the University of California-Davis and the University of Guelph have conducted studies finding that RPCs are often still contaminated when delivered to produce packers.

The environment wins when you champion sustainable packaging.

BENEFITS OF GREENCOAT

Financial Benefits

Costs less than wax boxes
No expensive wax box disposal fees
No RPC cleaning fees

Environmental Benefits

100% recyclable
Repulable
Reduced CO2 emissions
Reportable in GRI G4-EN-1:
• Renewable Materials
Reportable in GRI G4-EN-32 and 33:
• Supplier Environmental Assessment

Health Benefits

Avoid risk of E. coli, salmonella, listeria & other pathogens associated with foodborne illness breakouts

Product Benefits

Water-resistant
Ideal for shed or field packing
Strong & durable
Easier to glue than wax
Customized for your needs

"A return to single-use containers for fresh produce might reduce the risk of foodborne illness outbreaks associated with those products."

Steven Ricke, Professor
University of Arkansas Center
for Food Safety
